# INTRODUCTION

One of the ways through which nations, government agencies and private establishments have grown is through sponsoring of research:

While the proceeds of research adds value to national development, agencies and companies put more money into research.

The answer to "what is the greatest question in science?" is –  
"Where is the next grant coming from?"

From: Dunn A. (2017)

This could remind us of facts:

- a. Major scientific discoveries were possible because of the generosity of funding agencies
- a. The funds are not easy to come by. It doesn't mean that once you write you get the funds.

## What is a Research Grant Proposal?

# WHAT IS A RESEARCH GRANT PROPOSAL?

It is “A formal proposal submitted to a government or civilian entity that outlines a proposed project and shows budgetary requirements and requests monetary assistance in the form of a grant” (Entrepreneur 2018)

1. It is a social investment
2. It is for the enhancement of social change
3. It is a partnership to help achieve aims and objectives
4. It is a means for accomplishing mission
5. It is a proposal not a grant yet
